

Most people appreciate a good thing at a fair price, but some few will have only the things that cost the most money. The "Ivory" is the favorite soap of most people. Some few want the high-priced toilet soaps and think they must be better because they cost more. No soap is more carefully made, or is made of better materials, than Ivory Soap.

The Howyer Club in Camp.

The Howyer club, composed of Miss M. Grace I. Prouty, Esther Cooley, Morris E. Alling, Henry Natsch, Burton J. Bald-win and L. Lorimer Drury, former students of Northfield seminary and Mt. Hermon school respectively, with Miss Eliza-beth Brown as chaperon, are camping out for 10 days at Sunset lake. Sunset lake is an ideal place for a camping party who desire perfect quiet, rest and the pure mountain atmosphere. The latter has caused the appetites of the young men to grow to such an extent that they may have difficulty in securing boarding places when they return to college. Most of the campers are college students who have come here for a few days of recreation before taking up their winter's work. Morris E. Alling of Wesleyan university is president of the club, L. Lorimer Drury of Brown univer-sity secretary and treasurer, and Henry Natsch of Brown university chaplain.

J. N. Batterley, Will Betterley and their wives started on a carriage drive Thursday to South Strafford, Vt., to visit their mister, Mrs. Nowlan.

A solo by Miss Es-terbrooks, quartet singing by Gilbert broth-ers and gentlemen from Northfield were numbers heard with fine effect, as was als the tenor horn and cornet playing by C. Miller and W. D. Stockwell. Good interest was shown throughout the meetings.

The usual quiet of John T. Wright's meadow, where his fine herd of milk pro-ducers are wont to reign supreme, was disturbed last Monday when the Vermoni Wheel club of Brattleboro took possession of the field and held it throughout the day, much to the amazement of the accustomed occupants of the place, who although they saw few "wheels and clubs," were un doubtedly interested in the games and con-tests which they saw enacted, and in the feast provided for the occasion, a descrip-tion of which is probably found elsewhere in this paper.

The many Vernon friends of A. J. White and family regret to learn that he has de cided to move to Windsor, Conn., and in-tends to go next week. Mr. and Mrs. White were efficient workers in the organization of Vernon grange and Mr. White has been master four years, resigning that office a few weeks ago. The family has suffered much from sickness and Mrs. White died a year ago this fail, and it is on account of the infirm health of Mr. White and his young son, Harry, that he has decided to try a change of residence. NEW HAMPSHIRE NOTES.

Lightning's Pranks Near Reene, During a thunder storm Monday afternoon bolt of lightning struck in a field 25 or 80 rods from the farm buildings of C. G. Britton, who operates a large creamery in the northwest part of Keene, causing considerable havoc. Winfred White, who was milking in a barn near by, was knocked insensible against the side of the building and had to be worked over several hours before regaining consciousness. He is still unable to speak. The water supply connecting with the barn and two adjacent houses was cut off, and investigation proved that a part of the bolt had been carried by a smooth fence wire to a point near the barn, whence it was conducted into the ground by a small piece of wire, melting through two lead pipes where they crossed. The main bolt struck a small elm tree, passed for several rods along a strand of barbed wire fence over a stone wall, melting the wire completely with the exception of the barbs, and plowing a deep furrow in the ground. Holes were torn in the ground large enough to hold a barrel. White, who was milking in a barn near by, was
